R1 – Residential District : Summer Village of Kapasiwin

APPROVAL OF DEVELOPMENT PERMIT

You are hereby notified that your application for a development permit with regard to the following:

CONSTRUCTION OF A TWO-STOREY DWELLING UNIT (115.4 SQ. M.) C/W DECK, WATER SUPPLY AND SEPTIC SYSTEM

has been **APPROVED** subject to the following conditions:

1- Approval of any plans or installation standards for an on-parcel sewage collection system by an approved Plumbing Inspector.

2- **SEPTIC SYSTEM:**

Approval of any plans or installation standards for an on-parcel sewage collection system by an approved Plumbing Inspector. The on-site sewage disposal system shall comply with the Private Sewage Systems Standard of Practice - 2021 as adopted by legislation for use in the Province of Alberta.

3- **WATER SUPPY:**

If by Cistern, the cistern shall be excavated and installed in conformance with the Safety Codes Act or as amended and all such other regulations which may apply to their construction.

If by Well, the Well shall be drilled in conformance with Alberta's Water Act (the Act) and Water (Ministerial) Regulations (the "Regulations") that regulate water well drilling activities in the Province of Alberta and / or certification provided by a professional engineer or certified hydrologist or certified plumbing inspector attesting an adequate flow of water of potable quality.

4- All municipal taxes must be paid.

5- Two (2) Off-Street parking spaces must be provided on site

6- The applicant shall display for no less than twenty-one (21) days after the permit is issued, in a conspicuous place on the site or on streets abutting the site, the enclosed notice.

7- The applicant shall provide a certified copy of plan of subdivision to determine all easements and restrictive covenants on the parcel, and 8.5 X 11 copies of site plans of a quality satisfactory to the Development Officer.

8- The applicant shall obtain and adhere to the requirements where applicable, from the appropriate authority, permits relating to demolition, building, electricity, plumbing and drainage, and all other permits required in connection with the proposed development.

9- The applicant shall be financially responsible during construction for any damage by the applicant, his servants, his suppliers, agents or contractors, to any public or private property.

10- The applicant shall prevent excess soil or debris from being spilled on public streets and lanes; and shall not place soil or any other material on adjacent properties without permission in writing from adjacent property owners.

11- The improvements take place in accordance with the sketch submitted as part of the permit application, INCLUDING:

- **Front Yard setback shall be a minimum of 8.0 metres (26.2 ft.) from the easterly limit of the Footpath Easement;**
- **Side Yard setback shall be a minimum of 2 metres (6.6 ft.);**
- **Rear Yard setback shall be a minimum of 6 metres (19.7 ft.; and**
- **Maximum Height shall be 9.0 metres (29.5 ft.).**

12- All improvements shall be completed within twelve (12) months of the effective date of the permit.

13- Sump pumps are required in all buildings to accommodate weeping tile flow. Sump pump discharge is to be directed onto the ground in the same manner as downspout drainage.

14- The applicant is responsible for designing and constructing a building foundation drainage system adequate for the existing soil conditions.

15- The applicant is responsible for determining if there are any special considerations required for building foundation construction.

16- The site and improvements thereon shall be maintained in a clean and tidy condition during construction, free from rubbish and debris. Receptacles for the purpose of disposing of rubbish and debris shall be provided to prevent scatter of debris and rubbish.

17- No person shall keep or permit to be kept in any part of a yard any excavation, storage or piling of materials required during the construction stage unless all necessary safety measures are undertaken. The owner of such materials or excavation must assume full responsibility to ensure the situation does not prevail any longer than reasonably necessary to complete a particular stage of construction.

Note 1: It is recommended that the applicant garner written confirmation, in the form of a geotechnical report, prepared by a qualified engineer, or engineers, attesting to the suitability of the site for the development proposed under this permit. Where such documentation is not garnered, the applicant assumes all risk and is responsible for any issues that should arise with not acquiring a geotechnical report.

Note 2: It is recommended that the applicant garner a real property report, prepared by an Alberta Land Surveyor, confirming the location of the building before construction proceeds beyond the foundation stage of construction.
